## **APPLICATIONS BUILT**

### **Find a Home for My Pokémon**

- The purpose of our webpage is to find the nearest geological place near you that would suit a Pokémon. By parsing through the various locations in a typical city, we have created a simple site that would cross-reference the information gained through the TomTom maps to find habitats that would suit various Pokémon's from generation 1.
- This is a fun website where Pokémon fans can find where their favorite Pokémon may flourish in real life.
- HTML5, CSS3, Javascript, JQuery, PokeAPI, Bootstrap, TOMTOM API,
